

Candidate Gamma

Frontend Software Engineer | gamma@example.internal | San Francisco, CA

Summary:

Frontend engineer focused on accessible, high-performance web applications and enterprise design systems.

Technical Skills:

Languages: TypeScript, JavaScript, HTML, CSS

Frameworks: React, Next.js, Redux, Tailwind CSS

Testing: Jest, Cypress

Experience:

Senior Frontend Developer · WebCore Labs (2021 · Present)

- Built responsive recruitment dashboards in React and Next.js utilizing TypeScript.
- Designed reusable UI component libraries styled with Tailwind CSS and CSS modules.
- Integrated GraphQL and RESTful backend APIs with optimistic UI caching.
